

Joseph F. Amato, M.D.

June 26, 2023

I hope this letter finds you and your families well. For some time now, I have been exploring ways to slow down but keep providing care to my existing patients. Unfortunately, the economics of medicine have made that incredibly difficult. Since Obstetrics and Gynecology are a true passion, I have had to explore other options or make the decision to retire completely. Fortunately, I have been offered a Laborist position with the Mount Carmel System starting in September. This position will allow me to slow down thus having more time to spend time with my wife and family.

Treating patients has been an absolute joy. Through the years I feel as though I have become a part of your families as much as you have become part of mine. When I finally retire, the best memories will be the relationships that we have developed over the years.

I am thankful that I have been fortunate to work with the best OB-GYN practice in the world. The group has always put our patients first. I can move on knowing that my patients will be in the fine hands of the doctors that I helped to train in their residency.

Thank you for the time that we have had together and placing your trust in me as your physician.

A handwritten signature in cursive script that reads "Joseph F. Amato, M.D.".

Joseph F. Amato, M.D.
